CONCLUSIONS

Transient A-Fib rhythm on days 2, 4, and 5. AF Burden as 12.5

Tachycardia (rates as high as 175 bpm at D2-13:30) was present with 76 minutes with HR in excess of 110 bpm.

Bradycardia (rates as low as 42 bpm at D3-21:41) was present

The average heart rate was 64 bpm.

Isolated PVC's.

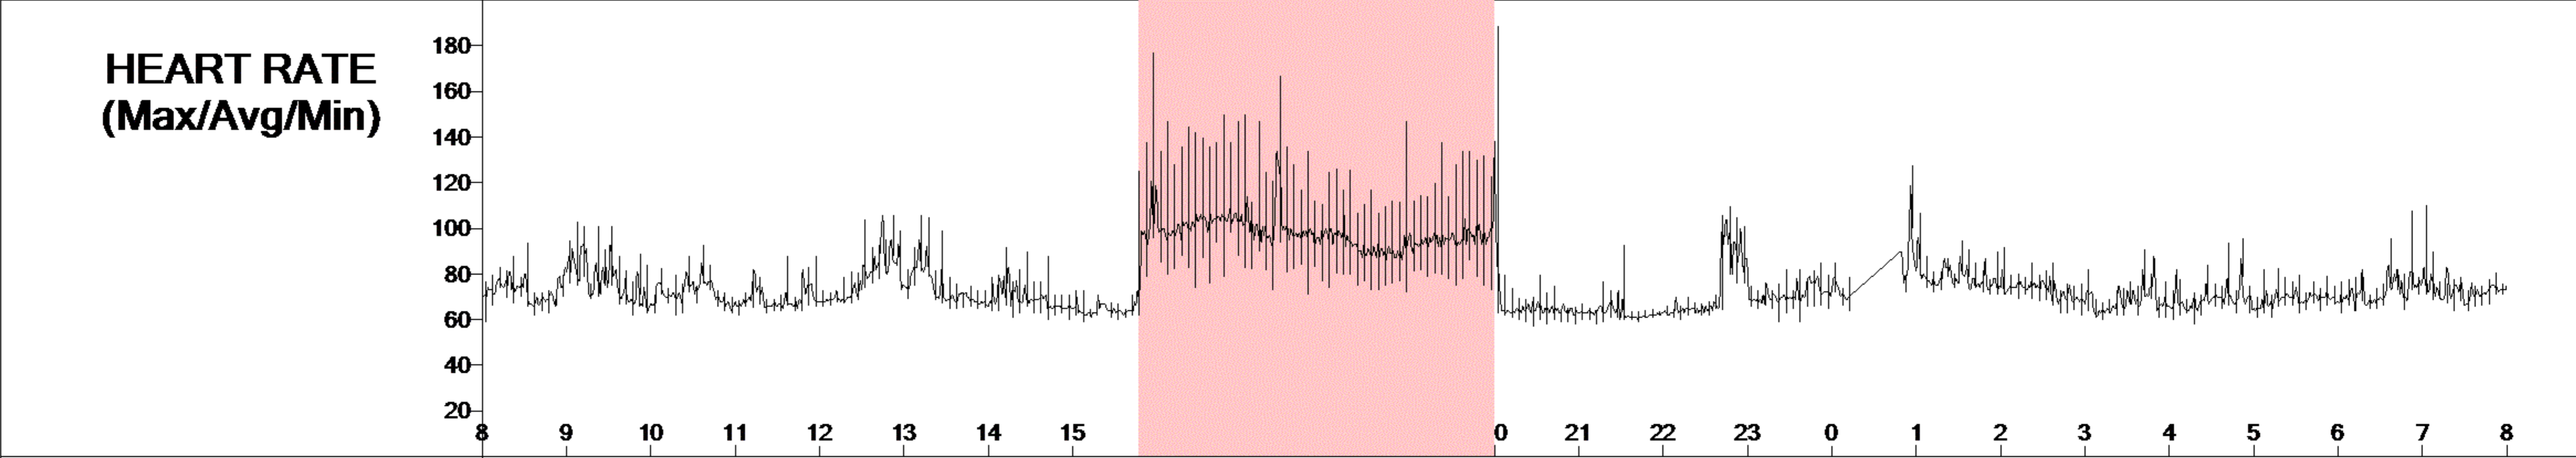

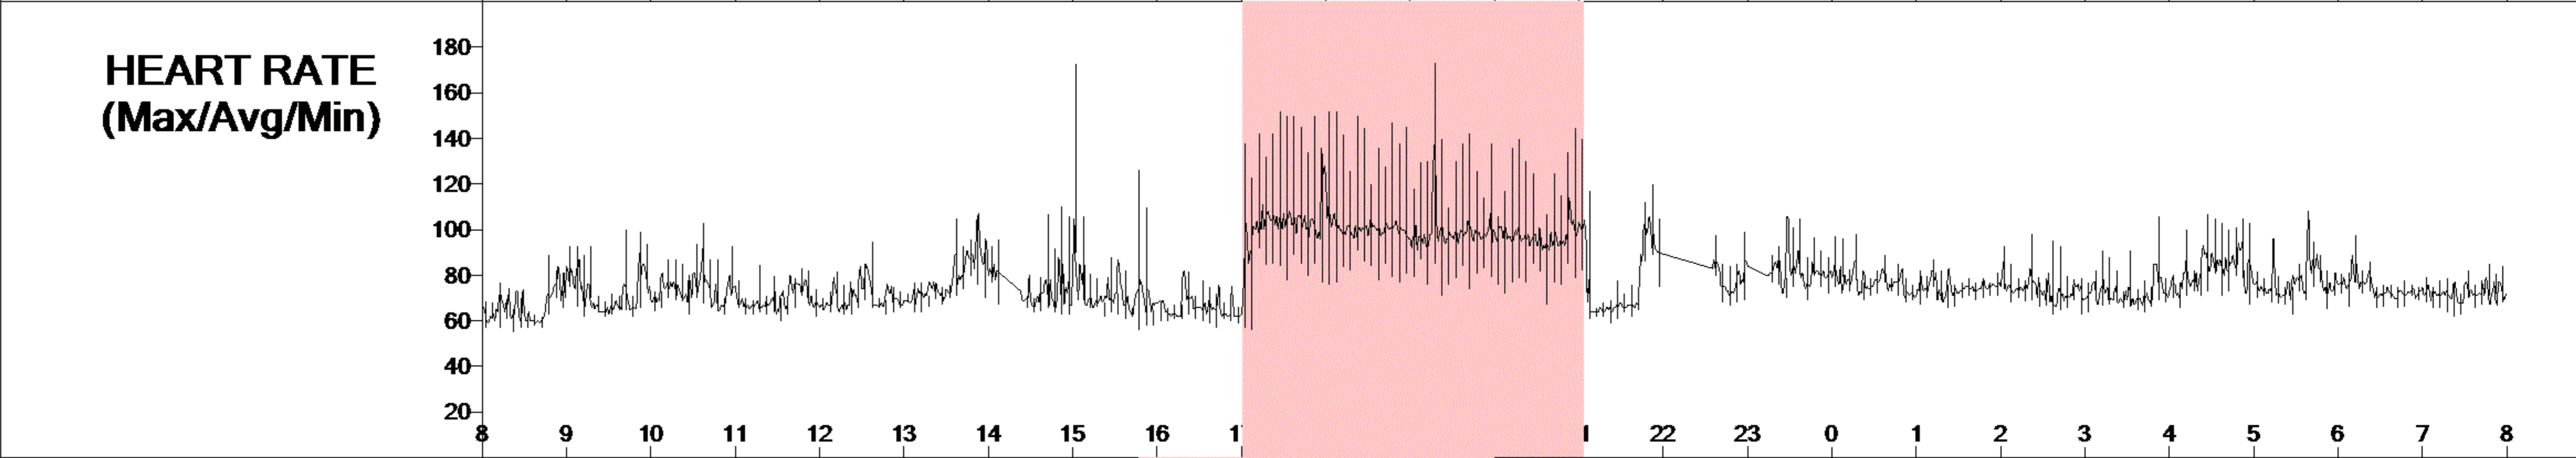

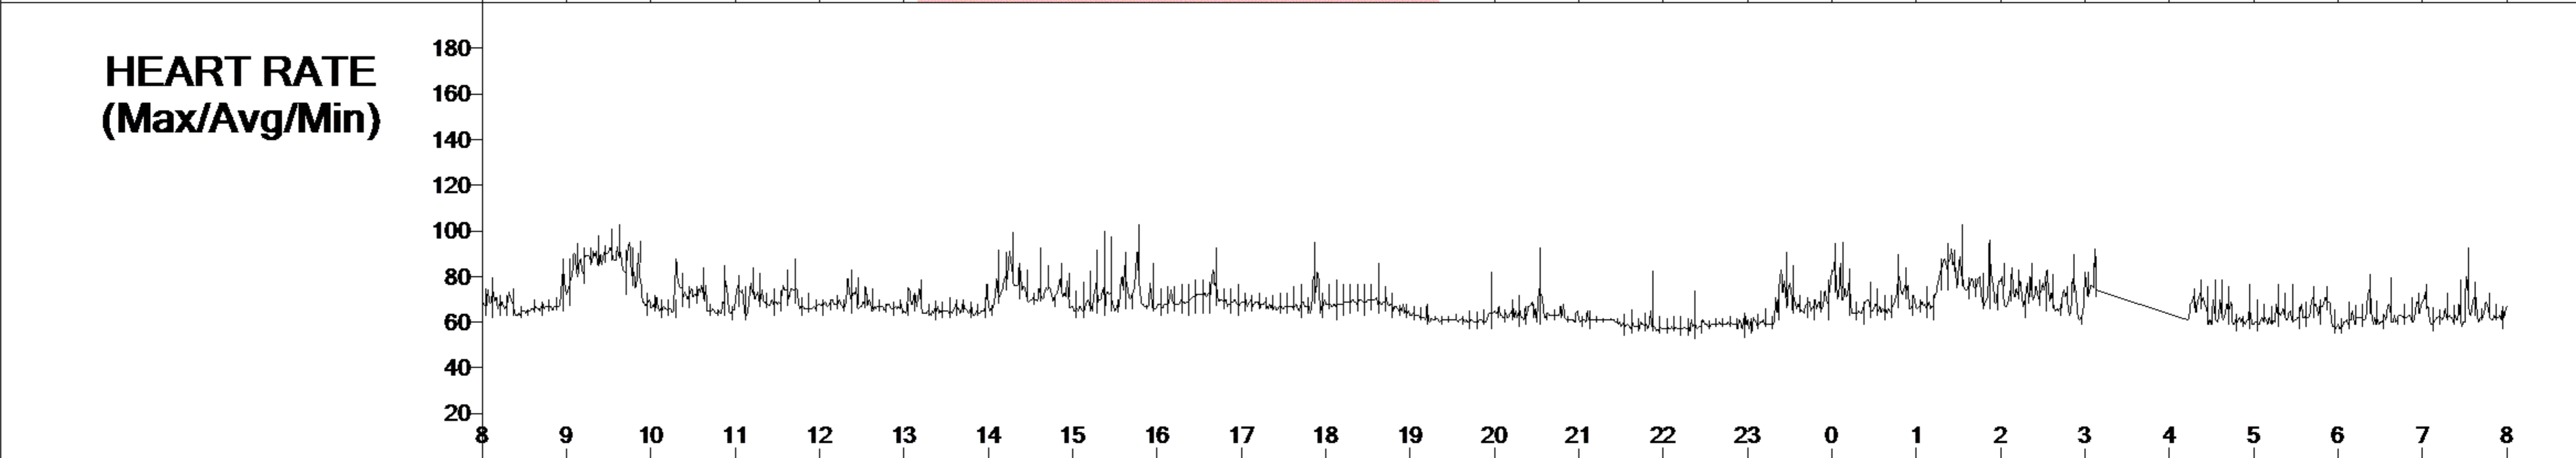

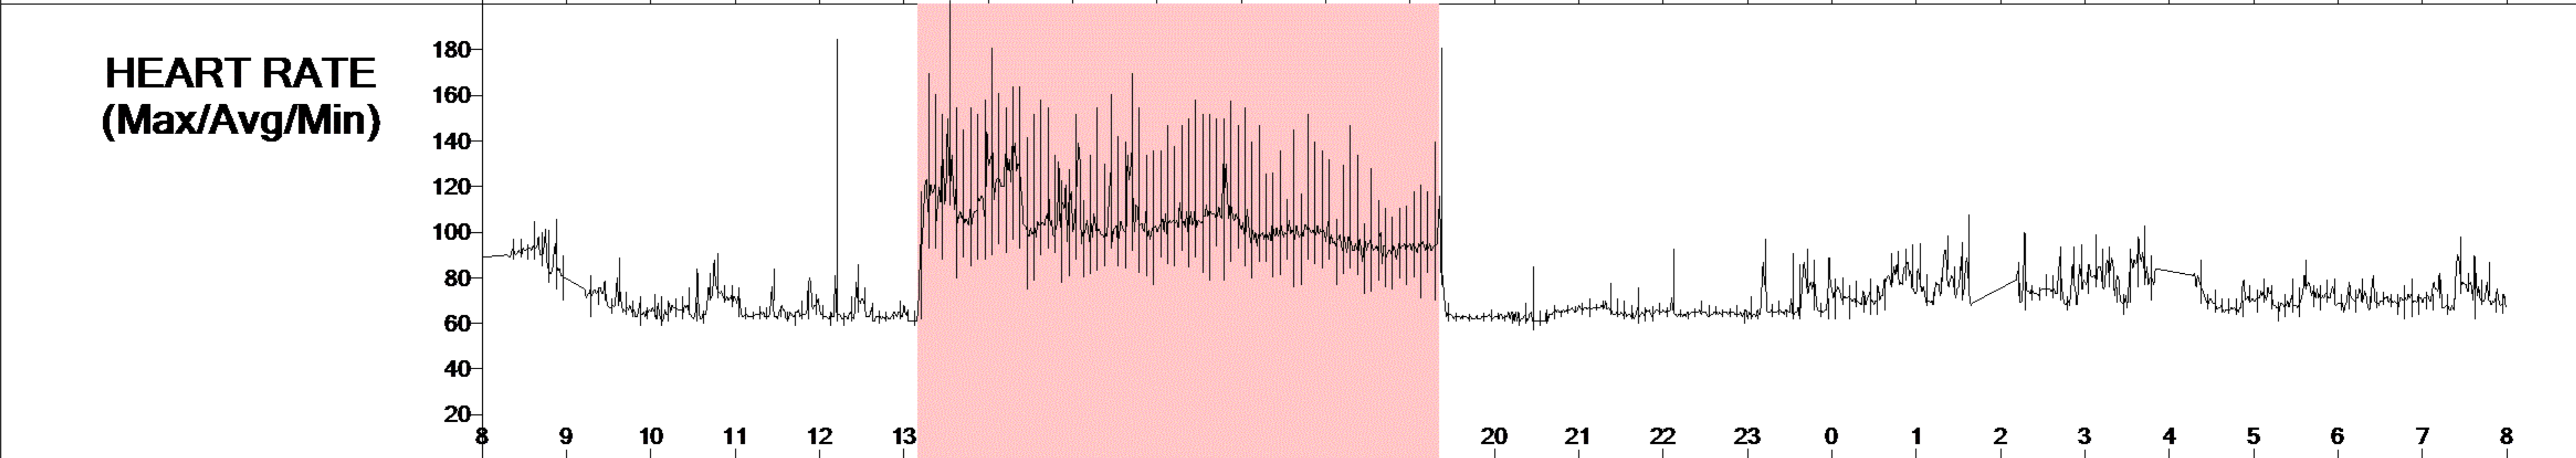

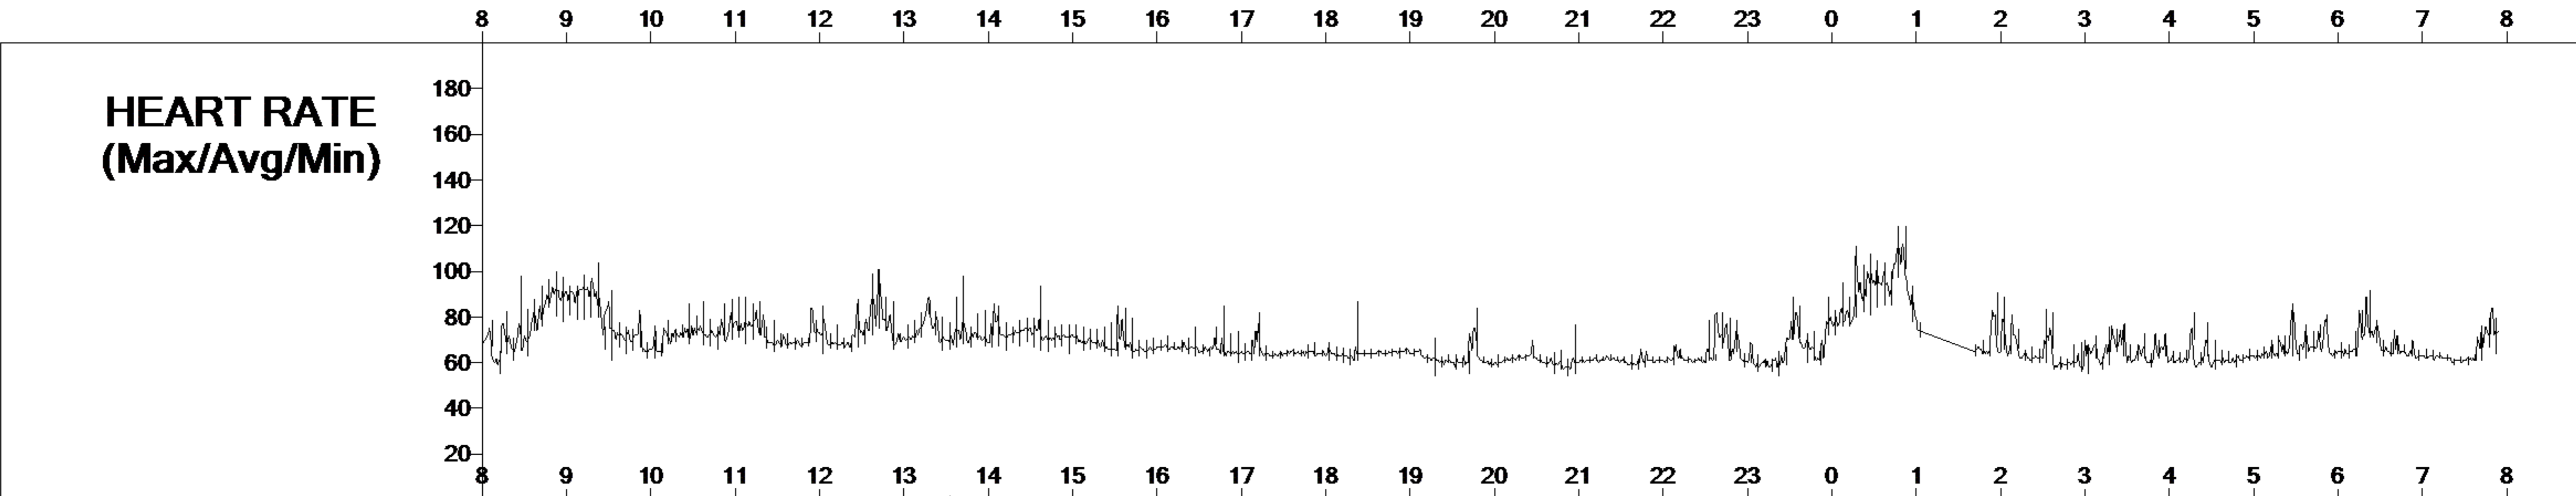

Isolated PAC's, with several SV Runs. SV Runs were detected prior to onset of A-Fib rhythm.

No Pauses in excess of 3.0 seconds.

No V-Runs.

No ST Depression.
